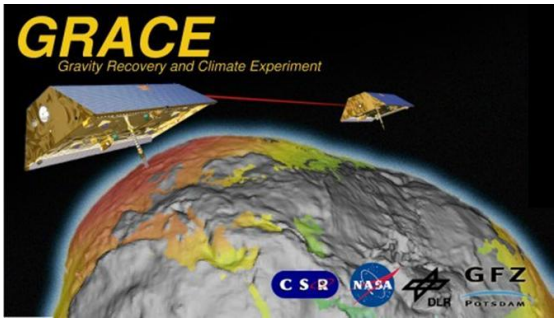
GRACE Science Data System Monthly Report March 2012



Prepared by:
Frank Flechtner GFZ flechtne@gfz-potsdam.de

Contributions by:
Srinivas Bettadpur UTCSR srinivas@csr.utexas.edu
Mike Watkins JPL michael.m.watkins@jpl.nasa.gov
Gerhard Kruizinga JPL gerhard.kruizinga@jpl.nasa.gov

Approved by:
Byron Tapley UTCSR tapley@csr.utexas.edu

Highlights:

- GRACE celebrated 10th anniversary on March 17.
- CSR has generated and delivered RL04 Level-2 products for February 2012.
- All three centers have generated and delivered RL05 Level-2 products (CSR up to degree 60 for period 2004-2010, GFZ up to degree 90 for period 2005-2010, JPL up to degree 90 for period 2004-2010) based on reprocessed L1B data (RL02), updated processing standards and background models. Updated RL02/RL05 documentation (e.g. Release Notes, Processing Standards Documents) is partly also already available at the archives and will be completed along with still missing monthly products during the next few weeks. The new L1/L2 products are already publicly available.
- RL05 will substitute RL04 within the next months. Please refer to the upcoming newsletters.
- Next GRACE Science Team Meeting (GSTM) combined with the Final Colloquium of the DFG Special Priority Program "Mass Transport and Mass Distribution in System Earth" will take place on 17-19 September 2012. It will be followed by a Sea Level Workshop on 20 September 2012 (both at GFZ in Potsdam). Information is available at http://www.gfz-potsdam.de/portal/gfz/Neuestes/Veranstaltungen/Tagungen+und+Konferenzen/2012/GRACE+Meeting.

  Important Note: As in mid September 2012 there are several large trade fares taking place in Berlin (e.g. ILA (Berlin Air Show) and Innotrans (International Trade Fair for Transport Technology)) with many hotels in Berlin and Potsdam being blocked for a long time already we couldn't arrange block reservations in our favorite hotels. **Therefore we strongly recommend that you organize your travel arrangements quickly!**

Satellite Science Relevant Events:

- Operations in Science Mode throughout the month except for the periods highlighted in the L1B Data Processing section below.
- The actual mission status can be monitored at http://www.csr.utexas.edu/grace/operations/mission_status/.
- The GRACE-1 Brouwer mean orbital elements on April 1, 2012 00:00:00 are as follows:

  A [m] = 6824831.754
  E [-] = 0. 001618
  I [º] = 89.014481
- The satellites separation was 195 km on April 2, 2012 with a rate of 0.63 km/d. An orbit maneuver will be needed in about 7 months.

Level-0 raw data dump reception statistics at DLR ground stations Weilheim and Neustrelitz:

GRACE-A Housekeeping:	100.0 %	GRACE-B Housekeeping:	100.0 %
GRACE-A Science:	100.0 %	GRACE-B Science:	100.0 %

Level-1 Data Processing:

- Level-1B Release 01 instrument data have been processed at JPL and archived at GRACE-ISDC and JPL PO.DAAC. Please refer to the statistics below.
- Notes:
  - On 2012-03-09 at 23:19:54.00 the GRACE-A redundant IPU ceased nominal operations. At 2012-03-10 05:35:40 GRACE-A was switched to the main IPU and nominal operations were restored. All Level1B data for GRACE-A and KBR1B data are lost during this interval
  - KBR statistics:

    A) KBR1B product name
    B) Total arc length with data (hours)
    C) Number of observations used in residual calculation
    D) KBR-GPS range residual RMS (cm)
    E) minimum KBR-GPS range residual (cm)
    F) maximum KBR-GPS range residual (cm)

G) number of continuous segments in the KBR product

Following JPL RL00 (yellow), RL01 (green) and RL02 (“x”) L1B products are publicly available. June and July 2002 (red) are not provided due to accelerometer problems. See also

comment in the Highlights Section. For January and June 2011 (blue) a significant number of accelerometer data is not available (see corresponding newsletters).

- The L1B Read software has been updated to accommodate 64-bit machines but the software will also work on 32 bit machines. Please change RELEASE_2008-03-20 to RELEASE_2010-03-31 available at ftp://podaac.jpl.nasa.gov/allData/grace/sw/.
- L1B De-aliasing Products Status (for details see AOD1B Product Description Document):
    - Release 01: Generation has been stopped June 30, 2007.
    - Release 03: Generation has been stopped January 31, 2007.
    - Release 04: Generated until April 6, 2012 and extended to 1976-2000 (see newsletter for December 2008). Quality statistics for Release 04 products are online available at http://www-app2.gfz-potsdam.de/pb1/op/grace/results (follow link "GRACE Atmosphere and Ocean De-aliasing Statistics).
    - Following AOD1B products are publicly available (yellow: RL01, RL03 and RL04; green: RL01 and RL04, blue: RL04 only):

Level-2 Product Generation and Distribution:

- Besides historical CSR RL01, GFZ RL03 and JPL RL02 time-series (see below) and more experimental releases which are only available to the GRACE Science Team the following RL04 and RL05 L2 products are presently available to the public (green: available, yellow: in preparation; red: missing due to accelerometer data problems):

  - **GFZ RL04:** GSM solutions are available for August 2002 until January 2012. July 2004 until October 2004 and December 2006 are also available as constrained solutions (*GK2-*, reason is GRACE 4d repeat orbit and GPS anomaly on GRACE-B, respectively). October 2008 until September 2010 are also available as unconstrained solutions up to degree and order 60 (*GM60*, reason is GRACE 7d repeat orbit). Corresponding background GAA, GAB, GAC and GAD products and calibrated errors (GSM*.txt) have been provided too. Details are listed in the GFZ L2 Release Notes.

  - **GFZ RL05:** GSM solutions are available for January 2005 until December 2010. Corresponding background GAA, GAB, GAC and GAD products and calibrated errors (GSM*.txt) have been provided too. Details are listed in the GFZ L2 Release Notes.

2012												

- **CSR RL05:** GSM solutions along with the GAC and GAD background model files are available for the period January 2004 until December 2010. So far no calibrated errors (GSM*.txt) are available, but will be provided later. Note that CSR has put zeroes in the GSM files in fields that contain the formal errors. Details are listed in the CSR L2 Release Notes.

- GFZ has stopped RL03 processing (Feb 2003 until Jan 2007 available at the archives. For further details refer to the GFZ RL03 release notes for Level-2 products).
- CSR has stopped RL01 processing. (Apr. 2002 until Dec 2006 available at the archives. For further details refer to the CSR RL01 release notes for Level-2 products).
- JPL has stopped RL02 processing (January 2003 until November 2005 available at the archives. For further details refer to the JPL RL02 release notes for Level-2 products).
- TN05 containing C20 estimates derived from SLR and using GRACE RL04 standards is periodically updated.

Miscellaneous:

- The Proceedings of the 2011 Grace Science Team Meeting are online. See the Past Meetings link to the right at http://www.csr.utexas.edu/grace/GSTM/ .
- The following acknowledgement shall be added to any new GRACE related publication (paper, poster etc.): *Acknowledgement: We would like to thank the German Space Operations Center (GSOC) of the German Aerospace Center (DLR) for providing continuously and nearly 100% of the raw telemetry data of the twin GRACE satellites.*
- A list of GRACE related publications which can be sorted by author or date is available at http://www.gfz-potsdam.de/portal/gfz/Struktur/Departments/Department+1/sec12/projects/grace/grace_publications (current status: 877 papers). This list maybe still incomplete. If you are missing a publication please send an e-mail to Frank Flechtner (flechtne@gfz-potsdam.de).
- Science data users are encouraged to submit citations of their own and other works related with GRACE to the bibliography web page implemented at PO.DAAC: http://podaac.jpl.nasa.gov/grace/bibliography.html.
